

**How to approach job hunting strategically.**

**This process will save you time and energy, make you more effective and help you to make better career decisions.**

Carmel Morrissey Career coach

# JOB HUNTING

## Wheel of Success

*Clarity-Understand your needs and goals*

Do you know what you are looking for, are you clear on why you are right for these roles?

*Market Research & Strategy*

How well do you understand trends in your industry, what is your strategy

*Interviewing*

How are you preparing for interviews?  
How confident are you feeling about your performance?  
Do you reflect, adapt and adjust after each interview?

*Managing mindset*

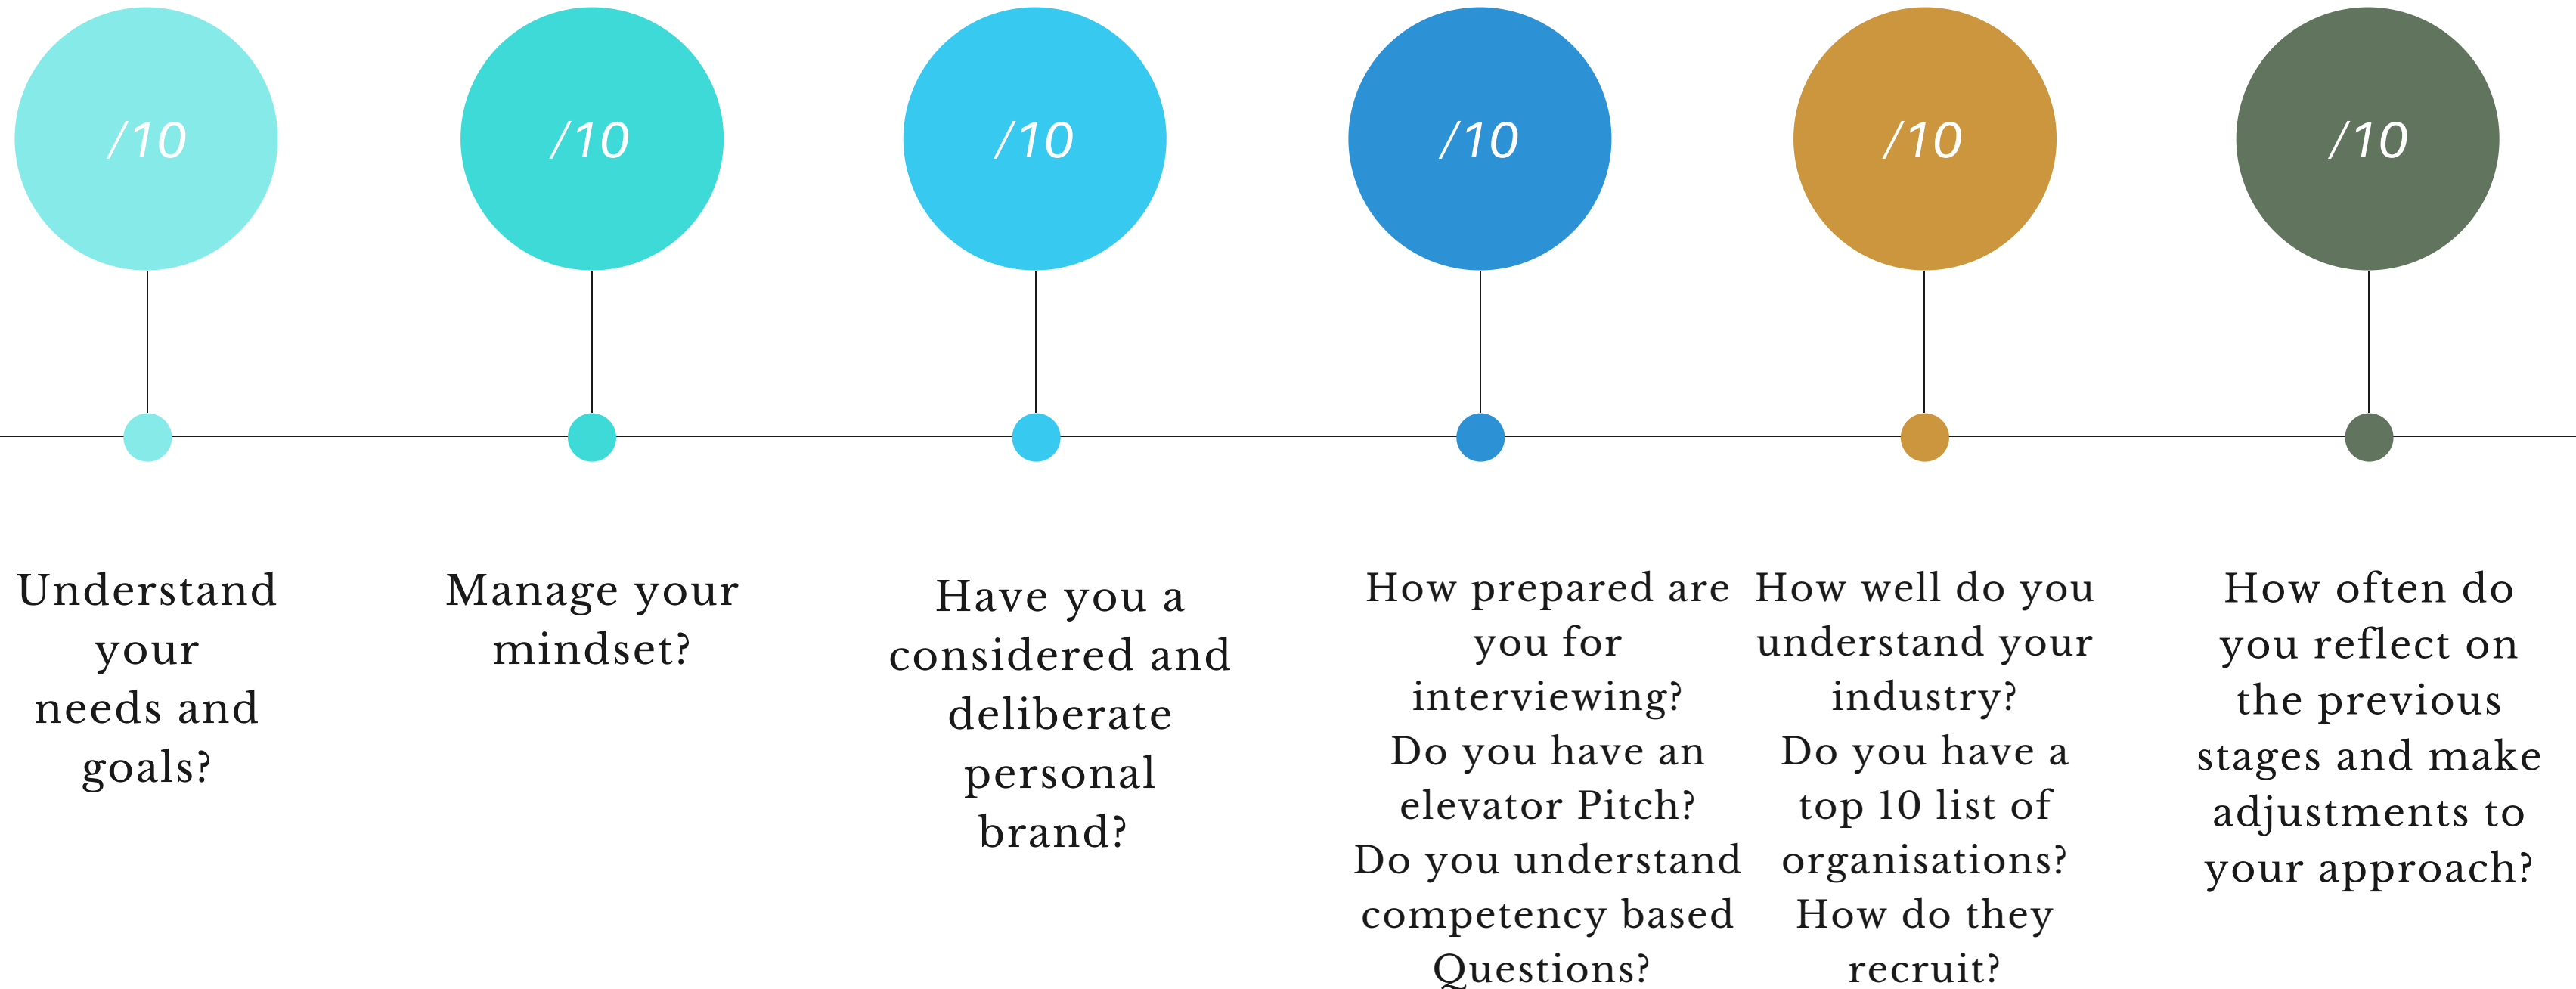

What are your beliefs around your ability to find the right role, how are you cultivating confidence and remaining motivated?

*Personal Branding*

What is your personal brand? Is your CV reverse engineered around each role, is your LinkedIn complete with a strong profile and are you making use of keywords?

# RATE OUT OF 10 THE FOLLOWING AREAS

10=No room for improvement and 1= needs urgent attention

## MOVING FORWARD

Now that you have evaluated each segment, make a plan to increase each segment by 1/2 points and aim to continue improving each segment incrementally.

Remember to celebrate your achievements along the way

**"If you change the way you  
look at things, the things you  
look at change"**

Wayne Dyer

*Thank you*
